

BETTER WITH A MAN (RAYSHAWN)

When a fellow needs a little helping hand
Who'll be there? It's almost guaranteed
No one else could ever really understand
Only another man knows what you need

And when a man has fallen down upon his knees
In such a moment who'd be better than
Someone who's self-controlled
Someone who's strong and bold
Someone as good as gold
It's better with a man

When a man is lonely he can always find
Another man who's feeling just the same
Drink will help you get your troubles off your mind
You'll both be blind before you know his name

And in that rousing climax when your horse comes in
Who will cheer as loudly as he can?
Only a man can see
The meaning of victory
Oh, the camaraderie
It's better with a man

Women have much to recommend
Lord knows I've had my share
But when a fellow needs a friend...
That's a totally different affair

Women are soft against your skin
They're awfully nice to nestle with
But when the sport is masculine-
You need a man to wrestle with!

Gentlemen have secrets they will never tell
They'll never tell, they'll never tell their wives

BETTER WITH A MAN (RAYSHAWN)

Married men know there are things you must not say
Discretion is the only way
That love survives

Men are always there
Always there to share
And take good care

As mates and brothers
Take a look at us
It's been ever thus
Since boarding school began

Women are too complex
Women too often vex
Men are a simpler sex
It's better with a man

Better with a man

Better with a man

Better with a man!

(spoken) Bottoms up!
