

IN SHORT (TRAVIS)

My love affair with you is over, it's through
We loved and then we lost
And though it came at quite a cost
We both had the chance to grow
I've collected my thoughts
and once before I go
There's just one thing
I want you to know...

I wanna punch you in the face.
Stab you with a sword
I hope you lose all your hair
And eaten by a bear
Strangle yourself with a telephone cord
Or lean out a window a little too far,
Don't look both ways
and get hit by a car
Choke on a Now and Later
Get your shoelaces caught in an escalator
In short - I hope you die

Maybe it's wrong to wish death on
Someone you had so much love for
But since we shared so much
It makes me want to kill you more

I wanna stick pins your eyes
I pray you get a rectal rash
I hope your Visa's declined
Your children are blind
You're broke and have to do porn for cash
Become epileptic and violently shake
Find out that you were conceived by mistake
Fall out of a roller coaster
Take a warm bath with a plugged in toaster
In short
I really hope you die

IN SHORT (TRAVIS)

Okay, so maybe I've gone too far
Maybe I'm saying this out of spite, right?
Maybe I still think these things to cope with sleeping alone each night
Cause obviously I'm still thinking of you
And wishing that we could just start over new
What if we both give it one more try?
Sucks that we can't cause you're a prick who deserves to die

Die, die, die, die, die, die, die, die
Die, die, die
Die, die, die, die
Die, die, die, die, die, die, die

Get Monkey Pox!

Die, die, die, die, die, die, die

Mad cow.

Die, die, die, die, die, die, die

Bird flu.

Die, die, die, die, die, die, die

Fall when you're going out of the shower and your tweezers are on the floor because you're always using your tweezers because you care more about your eyebrows than you care about me. So you fall onto your tweezers and they pierce you in the middle of your head and you become immediately paralyzed and slowly bleed out.

Get beaten and slugged
Molested and mugged
Wake up to find you're hungover and drugged
I hate you, I'm leaving, goodbye!

In short
I hope you fucking die!
Die!
